

PURNET MOIRANGTHEM

Product Designer · UX Designer · UI Designer

Bengaluru, India · +91 7720020366 · purnet.92@gmail.com · Portfolio · LinkedIn

PROFESSIONAL SUMMARY

Associate Product Designer with 2+ years of end-to-end UX experience designing SaaS platforms, agentic AI interfaces, and enterprise web applications. Skilled in creating wireframes, prototypes, and high-fidelity designs in Figma; contributing to scalable design systems; and mapping customer journeys to surface holistic product improvements. Experienced collaborating asynchronously with cross-functional teams — PMs, engineers, and researchers — across agile sprints, with a track record of shipping 0-to-1 human-centered products that are accessible and technically sound.

CORE SKILLS & TOOLS

Design: Figma, Framer, Wireframing, Prototyping, Interaction Design, Design Systems, WCAG Accessibility
Research: User Research, Usability Testing, User Interviews, A/B Testing, Journey Mapping, Stakeholder Interviews, Data Analysis

Process: Design Thinking, Agile/Scrum, Cross-functional Collaboration, Roadmap Planning
AI Tools: Claude Code, ChatGPT, Gemini, Stitch

WORK EXPERIENCE

Kapture CX | UI/UX Designer

Jul 2024 – May 2026

- ▶ Built and maintained a scalable design system in Figma, reducing design-to-handoff cycle time by ~30% and ensuring visual consistency across all product surfaces.
- ▶ Designed and shipped a QA platform from 0-to-1 — owning the full product design lifecycle: discovery, user research, wireframes, high-fidelity UI, and usability testing. Now adopted across 100% of QA workflows, replacing the legacy system.
- ▶ Led UX design for an agentic AI platform adopted across video and operations teams — defining interaction patterns for LLM model selection, multi-step AI workflows, and a to-do feature that converts group chat messages into personal task management, improving team efficiency by ~25%.
- ▶ Designed Post Call Analysis platform including the Data Studio module, replacing the legacy analytics tool org-wide; platform scoped as a standalone product currently rolling out company-wide.
- ▶ Leveraged AI-powered tools (Claude Code, ChatGPT, Gemini, Stitch) to accelerate ideation and rapid prototyping; collaborated with PMs and engineers in agile sprints ensuring WCAG accessibility across all surfaces.

Independent / Kapture CX | UI/UX Designer (Freelance & Internship)

Sep 2023 – Jan 2025

- ▶ Delivered end-to-end UX design for SaaS products across eCommerce, finance, and travel verticals; built portfolio and marketing sites in Framer including CMS-driven pages, improving client conversion rates by ~20%.
- ▶ Led full digital redesign of Shija Hospitals' website and mobile app — improved information architecture, accessibility, and user task completion rates by ~18%; applied cross-platform design principles across iOS and Android.

Dentsu Creative | Account Manager

Oct 2021 – May 2023

- ▶ Managed content strategy for YouTube Creators India, growing follower base by 77% and driving 2M+ views on branded campaigns including #CreatingForIndia — honing stakeholder communication and audience empathy skills directly applicable to UX.
